

Comp Photography Assignment #1

Ngoc Tran
Fall 2015

“Morning Walk@Heritage Park”

Details of the Picture

- A Caption:
 - "Morning Walk@Heritage Park"
- Location/Time/Context (ie. what is it?):
 - *Morning Walk, at Heritage Park in Dana Point, CA on August 9, 2015. Beautiful Morning walking trail that I normally walk in the weekend.*
 - *It's beautiful view of walking trail*

What was the goal?

- What were you trying to capture?
 - *Capture the beautiful view of walking trail with flowers and ocean view of the morning*
- Did you succeed?
 - *Yes, it a great view, but I could have a better color of the blue sky.*
- Did you do anything special ?
 - *Yes, i play around with color enhance, smoothing and filter methods for image to get the final look*

Discuss the shot

- Did you plan the shot? Tell us about it?
 - *While walking, I captured the beautiful view of the park*
- How many pictures of the same scene did you take?
Why did you choose to share this one?
 - *About 7. This one has peaceful view of the morning.*
- Did you do any post-processing? (ie. used some computer app to improve the picture?)
 - *Loads, to enhance the contract.*
 - *I use GIMP filter “Unsharp mask” applied.*

What else can be done?

- What else would you have done to make this picture better?
 - *I think it look very good, but maybe some more resolution would be good and maybe enhancement the color of blue sky of the ocean view. Also, if more light may be picture look better.*
- Do you wish there was some computational photography process that you can use to make it better (or worse?).
 - *Use Panorama photo at this level would have been awesome*
 - *It would be best if I capture use 360 Panorama on iPhone6 app*

Any other details.

- I could use HDR which is Higher Dynamic Range, it great tool built into the camera iPhone6
- Maybe look better if I have better light by turn on flash instead of set flash auto mode.
- Computational Photography (Rays to Pixels), Dual Photography, reflective properties of Ray of Light.
